

Arts4Life® Program Grant in Georgia – No Cost

Would you be interested in a no-cost, CMS grant-funded, high quality, therapeutic art and music program for your Georgia skilled nursing center?

81 GA Skilled Nursing Centers have signed up. Hurry... deadline is March 31, 2025 to let us know you want to be included. Project to begin later in 2025.

The Thriving4Life nonprofit organization is applying for a CMP grant for Georgia homes to receive our Arts4Life program after successful projects in 100 skilled nursing centers in both Tennessee & South Carolina – with tremendous results.

This dignity-promoting arts initiative can be offered to residents and patients in individual or group settings to offset the effects of isolation, trauma, PTSD, addiction, Alzheimer's Disease, cognitive, mental, developmental, or other impairments. It's for everyone!

We train your staff to deliver our therapeutic, expressive, fine-arts program that greatly differs from arts and crafts as well as our personalized music program. The grant will include quality art materials, Arts4Life program training, resources, support, access to an art exercise library created by art therapists, and listing your care center on our website as a "Participating Community" – so potential residents and families can find you!

We have so much to share with you. Go to the Georgia grant page of our Thriving4Life organization's website to find out more, like...

- What is the Arts4Life program?
- What impact has this program had for skilled care centers in other states?
- What would be included in the program and grant? What are the requirements?
- How can you participate in this opportunity?
